

Project DAWN (Deaths Avoided With Naloxone) is Ohio's network of opioid education and naloxone distribution programs.

Participants receive a take-home kit and training, including:

- Recognizing the signs and symptoms of overdose
- Distinguishing between different types of overdose
 - Performing rescue breathing
 - Calling emergency medical services
 - Administering intranasal naloxone

Ravenwood Health is a distribution site for Project DAWN through the Geauga County Health Department. Kits are offered **FREE** to anyone in the Geauga community, after reviewing a short training video (<https://youtu.be/dBF0ovVWPYc>) and completing paperwork at our office.

If you would like to participate and receive a naloxone kit, please call (440) 285-3568 for guidance, and to schedule your visit to Ravenwood Health.

If you have questions or concerns, feel free to contact Brock Bodenbender, LPCC, Director of Medication Assisted Treatment (MAT) and Substance Use Disorder (SUD) Residential Services at Ravenwood Health. (440) 285-3568 x218.
